

FIELD ENGINEERING SUPPORT SOUTHBORO

Technical Information Bulletin

TIB

DATE: 28 OCTOBER 1973
FROM: R. C. JENSEN
SUBJECT: NOVA 1200 POWER MONITOR AUTO
RESTART OPTION (8106)

NUMBER: S1005
CATEGORY: PROCESSOR OPTIONS
MODEL: 8106

It has come to the attention of this writer, by the LA Office, that an improper component may have been installed in this option. Ensure that C1 (Cap in lower left corner of board next to U1) is 6.8 ufd cap and not a 1.0 ufd cap. The components are physically the same size.
