SUBJ: UPGRADING FROM TYPIST TO ELECTRONIC OFFICE REVISION EO2

The following procedure must be followed prior to performing an upgrade from TYPIST to Electronic Office System Revision EO2.

1. Load the Electronic Office software onto your system as specified on page 7-1 of the EOS manual.
2. Run TIP.5.5.vvv on each logical unit configured for TYPIST (where vvv is the version of TYPIST).
3. From the IRIS Manager account, copy TIP.6.3.3.EO2 to your TYPIST module logical unit.
4. Proceed with the upgrade instructions as specified on page 7-38 of the EOS manual.

APPLICATIONS SUPPORT BULLETIN

November 10, 1984

APPLICATIONS UPDATES

- A. Memo: TYPIST and The Electronic Office System
- B. Patches to Applications

This bulletin lists patches to be applied if your operating system is IRIS 8.2 or later. DO NOT apply these patches if you are not currently running IRIS 8.2 or later.

1. Patch to FORCE Module LINK22 - This patch should be applied by using the FS.PATCHER Utility program.
2. Patch to FORCE Module LINK23 - This patch should be applied by using the FS.PATCHER Utility program.
3. Patch to FORCE Module LINK32 - This patch should be applied by using the FS.PATCHER Utility program.
4. Patch to FORCE Module LINK33 - This patch should be applied by using the FS.PATCHER Utility program.
5. Patch to STYLUS Module STYLUS.21 - This patch should be applied using the STY.PATCHER Utility program.

SUBJ: TYPIST and The ELECTRONIC OFFICE SYSTEM

The Electronic Office System has evolved from the TYPIST Word Processing System. Although the two systems function as entirely separate systems, they do share common filenames and coding routines which expect only one system to be installed. Because of this, both systems CANNOT be installed and accessible on the same computer.

We realize there may be a need for demonstration purposes to have both TYPIST and EOS available on the same computer. This can be accomplished as follows: Install one system on a single logical unit, then REMOVE that logical unit and install the other system on another logical unit. During a demonstration, install only the appropriate logical unit. To ensure that both logical units are never installed at the same time, give each the same logical unit number.
